IBS-POR_S Vision

The Iraq Ports Summit 2025 comes amid rapid transformations in the maritime transport and logistics sector at both the regional and international levels.

This summit serves as a strategic platform that brings together decision-makers from the public and private sectors, both locally and globally, with the aim of shaping the future of Iraqi ports as a solid economic pillar and a vital trade corridor linking East and West.

- Free trade zones
- Global maritime shipping lines
- Maritime academies

Iraqi Business Summit

First Edition – 12th of April 2025

6 Sectors – Private Sector,
Government, and Investors

Facts About Iraqi Ports

The Five Berths

Advanced maritime facilities at the Grand Al-Faw Port designed to handle containers and cargo, contributing to increasing the port's capacity.

%100

Connecting Road: Al-Faw – Umm Qasr

A strategic road linking Al-Faw Port and Umm Qasr Port to facilitate the movement of trucks and cargo and reduce transportation time.

%100

Grand Al-Faw Port & Development Road

An integrated project aimed at making Iraq a global logistics hub by connecting the port with land and rail routes to Europe and Asia. It includes several components, such as a giant container yard and a navigational channel 23 km long with a depth of 18.9 meters.

%95

Container Yard

%96

Navigational Channel

Submerged Tunnel

A maritime tunnel connecting Al-Faw Port with land transport routes, passing beneath the navigational channel to allow vehicle movement without disrupting maritime traffic.

%77

Breakwater

The largest breakwater in the world, stretching over 14 km, protecting the port from waves and marine currents.
